

*Lens — comparative output evaluation*

# See how framing changes an answer.

Send one prompt through three configurable lenses — different system instructions and temperatures — and compare the outputs side by side, with lightweight quality scoring on each.

YOUR ANTHROPIC API KEY

Stored only in this browser tab — never sent anywhere but Anthropic's API. Get a key at [console.anthropic.com](https://console.anthropic.com).

SHARED PROMPT

Explain to a customer why their order shipment has been delayed by 5 days.

Each lens below runs the same prompt under its own system instructions and temperature.

Run comparison

**Formal & Corporate**

Respond in a formal, corporate tone. Be precise, measured, and slightly reserved. Avoid contractions and casual language.

TEMP  0.3

*Output will appear here after you run the comparison.*

## Warm & Conversational

Respond in a warm, conversational, empathetic tone, as if talking to a friend. Use contractions and plain language.

TEMP  0.7

*Output will appear here after you run the comparison.*

## Concise & Technical

Respond concisely and precisely, prioritizing accuracy and information density over tone. Minimal pleasantries.

TEMP  0.2

*Output will appear here after you run the comparison.*
